Estimated Values are taken from one of a few sources. Primarily used are the Collector's Price Guide as provided by the Coin Dealer Newsletter and published by the ANA in the Numismatist; Trends Value as published by Coin World; and for coins in PCGS and NGC, those prices as published by either PCGS or NGC. For certain items, such as U.S. Proof Sets and Mint Sets, the Grey Sheet Ask prices as published by CDN will be used. All of these prices are approximations of full retail value.
