NOTE: For most U.S. coins, the Auction Lot Listing primarily relies on the Monthly Greysheet price list for Estimated Values. These prices reflect the national wholesale coin market by monitoring dealer-to-dealer transactions, public auctions, trade-shows, online trading, and subscriber feedback. For World Coins, Estimated Values are from the KP publication. Both U.S. and World Coin values also rely on recent internet sales. Please take this into account when formulating your bids.
